……
……
……
……

9. **Mention blood supply, nerve supply and lymphatic drainage of transverse colon.**

Compare between the small and large intestine (in a table).

……
……
……
……
……

10. **Mention the steps of heme catabolism (bilirubin formation)?**

……
……
……
……

11. **Mention types of Hypebilirubinemia?**

……
……
……

12. **Explain the mechanism of vomiting.**

……
……
……
……
……
……..

13. list three potential side effects of repeated vomiting.

……
……
……
……

14. How is gastric emptying regulated to ensure controlled delivery of chyme into the duodenum?

……
……
……
……

15. A 50-year-old patient with chronic atrophic gastritis is found to have megaloblastic anemia. Explain the physiological link between stomach function and this condition.

……
……
……
……
……
